CLASS DESCRIPTIONS

WATER EXERCISE

Y Water Fit

A low-impact alternative to traditional land aerobics with the intensity you want with aerobic activity and strength exercises.

Shallow Water Power

A high intensity, low impact workout focused on cardiovascular training, muscle toning, flexibility and coordination. Cardio movements include walking, jogging, kicking, cross-country ski movements and jumping jacks. Swimming skills are not required.

Boot Camp H2O

This exciting and challenging workout incorporates cardiovascular work, strength and core training - setting new standards in water-based fitness.

SilverSneakers® Splash

A fun, shallow-water exercise class that uses a signature splash-board to increase movement and intensity options. Splash is suitable for all skill levels and is safe for non-swimmers. The pool provides many benefits when used for aerobic exercise and resistance training.

MIND/BODY

Yoga on the Greenway

A Y tradition, we offer Yoga on the Beautiful Grand Forks Greenway during the summer which is open to all. Meet on the green space behind the Toasted Frog.

YogaFlex

A yoga-based class incorporating sitting and standing poses (not a mat class) for improved balance, posture, strength & flexibility. Great for anyone who prefers not to get down on the floor.

Yoga/Hot Yoga

Class begins with breath awareness and a few moments of quiet reflection. Gentle stretching opens the way to a practice of yoga poses to build strength, flexibility, and awareness.

Tai Chi for Veterans - Open to everyone!

The primary objective of the TaijiFit workout is to educe, develop and improve a state of Flow. Flow is a component of fitness that is critical for whole person synergy, improved experience of well-being, fitness performance, appearance and function. Using a base sequence of 6 movement combinations we'll help guide you in learning how to achieve a state of flow while helping you improve your flexibility, strength and balance.

Hatha & Somatics Yoga

Hatha yoga moves slower than Vinyasa and poses are held for longer, and provides a mixture of classic asana warm-up and cool downs to provide an overall balancing experience. Somatics is neuromuscular re-education and inner awareness of movement. Reorganizing the way the nervous system controls and senses muscles and movement.

Pilates

Improve your posture, strengthen your back and abdominal muscles, increase flexibility, prevent stress and back pain, tone muscles and sharpen your mind/body connection - with simultaneous stretching and strengthening in a non-impact balanced system.

SPECIALTY

Parkinson Wellness

The Y Parkinson Wellness program focuses on sensory awareness, physical effort, attentional focus, and cognitive and emotional engagement through specific exercises.
